

CDC-HKEAA Committee on Chemistry (2013-2015)
Gist of the 2nd Meeting

Date of meeting: 19-12-2013

Salient points of the discussion:

1. The progress and timeline for updating the Chemistry and Combined Science (Chemistry Part) Curriculum and Assessment Guides were reported.
2. The updates for Chapters 2, 3 and 5 of the Guides were reviewed. The drafts of the Guides would be circulated to seek members' views in January 2014.
3. Members were informed of the views collected from chemistry teachers and laboratory technicians in the training courses. Issues regarding insufficient teaching time, major challenges in students' learning and the use of practical activities for enhancing students' understanding were discussed.
