

CDC-HKEAA Committee on Chemistry (2013-2015)
Gist of the 8th Meeting

Date of meeting: 26-6-2015

Salient points of the discussion:

1. The upcoming events in relation to Medium-term Review and Science, Technology, and Mathematics (STEM) Education were reported.
2. The timeline and the strategies to collect views on the fine-tuned Chemistry and Combined Science (Chemistry Part) were discussed. It was suggested that questionnaires could be distributed in the SBA conference for collecting teachers' views on the curricula.
3. Good practices of using e-learning tools in chemistry lessons were shared and discussed.
