Unit 1: The Consumer Council

Student's File CW 1.1

Matching complaints and products

Match the complaints in Column A with the goods in Column B.

Column A

1. The blades don't seem sharp. They don't cut anything.
2. I think light is leaking in.
3. I just get snow - nothing I can really see.
4. You can have it on for hours & it just doesn't seem to make any difference - it's still stuffy.
5. The sole's coming off.
6. I've changed the battery, but the hands still don't move.
7. When you delivered it, it was scratched.
8. Some sections seem to be missing, & some repeated.
9. It ran out so quickly!
10. There's a crack in it.
11. They shrank.
12. The automatic defrost doesn't work.
13. It tears up the paper.
14. The bottom fell out - my things were everywhere.
15. I'm not sure, but I can't hear any higher notes.

Column B

- ___ A. shoe
- ___ B. vase
- ___ C. school-bag
- ___ D. refrigerator
- ___ E. TV
- ___ F. C.D.
- ___ G. camera
- ___ H. furniture
- ___ I. clothes
- ___ J. pen
- ___ K. fax machine
- ___ L. electric razor
- ___ M. watch
- ___ N. book
- ___ O. air conditioner

Consumer Goods Safety Ordinance

Complete this multiple choice cloze summary.

Introduction

The Consumer Goods Safety Ordinance was (1)_____ on 20 October 1994. The Ordinance imposes a (2)_____ duty on manufacturers, importers and suppliers of consumer goods to (3)_____ that the consumer goods are (4)_____. It is an (5)_____ for any person to manufacture, import or supply consumer goods which fail to (6)_____ with the general safety requirement or any (7)_____ safety standards. The Ordinance also imposes control on the (8)_____ of unsafe consumer goods.

Regulations

The Ordinance (9)_____ the Secretary for Trade and Industry to make regulations to approve safety standards or safety specifications (10)_____ to particular consumer goods. Such regulations (11)_____ when dangerous consumer goods are found in the market which (12)_____ any specific control schemes and require clearly (13)_____ safety standards for (14)_____ enforcement. The Ordinance also empowers the Secretary for Trade and Industry (15)_____ certain products in Hong Kong. This is to cater (16)_____ the emergence of new products, or the (17)_____ of existing products which are found (18)_____ exceedingly dangerous.

Recovery of expenses of enforcement

A person (19)_____ under the Ordinance may be ordered by the court to reimburse the Government Chemist for any (20)_____ associated with testing the goods and CCE for any expenditure which has been or may be (21)_____ him.

Penalties

The penalty provisions of the Ordinance are sections 28 and 30(2). They provide, (22)_____, that any person who contravenes section 6, or fails or refuses to comply with (23)_____ served by CCE commits an offence and is (24)_____ (a) on first conviction, to a fine of \$100,000 and to imprisonment for 1 year, (b) on (25)_____ conviction, to a fine of \$500,000 and to imprisonment of 2 years.

Student's File CW 1.4

Complaint Report (Listening One)

Situation : You are Chris Wong, an assistant to Matthew Fong, a senior officer of the Consumer Council. He's given you a number of jobs to do. Carry out the tasks below.

MEMO

From : Matthew

To : Chris

Chris

The new officer was very nervous yesterday and probably made quite a few mistakes when filling in her first complaint report form. Luckily I taped the conversation, so it won't take you long to check.

Thanks.

Look at what the officer wrote on the form, listen to the tape, and make any corrections necessary.

and electrolyte drinks having the possible 26. _____
affect of bringing you the immediate 27. _____
replenishment you in need. 28. _____
So there are another more economical 29. _____
alternatives to obtain these ingredient 30. _____
in order to replenish your energy & lose 31. _____
of water after exercise, unless though you 32. _____
have a personal preference for such 33. _____
drinks for reasons other than healthy. 34. _____
It is to be noted that infrequent 35. _____
consumption of such drinks could being 36. _____
detrimental, as some in the products 37. _____
actually content high levels of sugar 38. _____
or sodium, the daily high consumption which 39. _____
is unhealthy. People with high blood 40. _____
should avoid drinks with highly sodium 41. _____
content, and sugar drinks be contributory 42. _____
for obesity & tooth decay. Natural 43. _____
sugars are usually found in fruits, 44. _____
vegetables, milk and grains. In these 45. _____
should be sufficient to supplement to 46. _____
our bodily needs when we adhere 47. _____
to a balanced diet. 48. _____

Student's File CW 1.6

Some reports have become scrambled in the computer. Matthew Fong has asked you to sort out the points for the items under discussion by writing the letters A, B, C.....in their correct order in the blanks.

Can you sort them out?

(i) Use a good processing film

- A. The most important one is colour, which can vary slightly between different brands, but can be altered much more radically by the processing.
- B. If you are not happy, ask for reprints.
- C. Some aspects of colour prints are more dependent on the quality of processing than on quality of film.
- D. Another processing problem can be incorrect exposure during printing, particularly if the photo has very light & very dark areas.
- E. The automatic printing machine may scan the photo as a whole, giving it an average exposure, losing both contrast & detail.

Student's File CW 1.6 (cont...)

(ii) Cooker Range Hoods

Paragraph 1

- A. The former was also noticeably better in respect of electricity consumption & noise level.
 - B. Otherwise, the combination hood will suffice.
 - C. This type of hood is recommended for cooking that produces considerably more grease & smoke.
 - D. According to the test, the exhausting hood was, by far, superior in its ability to remove grease and smoke to the combination hood.
- _____

Paragraph 2

- E. The second best performers were the Sanwa, the Kosheta & the Athens.
 - F. However, the latter was comparatively more expensive & its protective shield was less satisfactory.
 - G. They had the highest scores in steam removal ability.
 - H. For the twin-fan exhausting type, the Pacific and Jacker were the best performers.
- _____

Student's File CW 1.6 (cont...)**Paragraph 3**

- A. The exhausting types of hoods were found to be able to lead the greasy fumes away from their motor & wiring.
 - B. In our record of complaint cases in relation to range hoods catching fire, the type involved was the combination hood.
 - C. They were therefore considered safer.
 - D. Our in-depth study revealed that grease does indeed accumulate on certain types of hoods.
 - E. This hazard, however, could not be substantiated in the test.
 - F. Sparks created by the rotating motor can then easily cause fires.
 - G. But an analysis of the combination hood type revealed it was particularly prone to this hazard if the grease filter was not regularly cleaned.
-
