

Tapescript PSW 1.5 Completing a CV

Rae Ling

Let me see, I've got to write this CV for my next job application - so much to put down and I know it mustn't be more than two sides of A4. It's so difficult. Well, here it goes. Let's do the easy bit first - Name - Rae Ling, spelt R-A-E, L-I-N-G. Then address, Flat 15A, Windsor House, Causeway Bay, Hong Kong. Telephone and fax number: 23891234. Date of Birth, well, that's easy too - 11 November 1970 and my marital status is definitely single. ID No. - K123579(8). Well, that's the easy bit out of the way. Now let's see - Educational background - when did I do my School Certificate? Oh, in 1986 at St. Simons School for Girls - and I was lucky, I passed 8 subjects: Maths, English, Art, Biology, Physics, Chinese, Chinese History and Geography. All that time ago! And I was so worried. Then in 1988, I did A-levels - managed to get Maths, Biology, Physics and thank goodness UE, managed a D pass on that one! Then in 1993, I went to the HKPU, only it was the HKP then and I went to the Design School and into Interiors, and finished with a 2.1. in Interior Design - that's a Humanities degree. While I was there, I won an IDA Scholarship to travel to Europe - that was in 1992. 1992 was a very good year because in the second year students went to India on a Design School Study Trip. After I graduated, I needed to find work very quickly so I worked for Kurt Deller, who had a big design practice - it was a bit of a factory really but I paid off my student loan. I was a design assistant. Kurt Deller's an American who specialises in high tech offices - or intelligent buildings. Well, I left that job after 6 or 7 months and joined Hilary Ho Design Partners. I wasn't really happy there. The work was too commercial. I was very lucky because Li, Robertson and Tung were looking for people and my HKPU professor recommended me. So, I joined them in 1994 and now I'm an assistant designer. We specialise in hotels and my responsibility is CAD - I really love using the computer. Well, that's my CV - I'd better save it and update it now and then. Oh, I forgot - referees - well Paul Li, Director, Li, Robertson and Tung, Praya Road, Aberdeen; and John Laine, Associate Professor, School of Design, HKPU. That's it!!
