

Comparative Study of the Mathematics Curricula of Major Asian and Western Countries

A Report by the Research Team comprising:

Principal investigator

Frederick Koon-shing Leung, Department of Curriculum Studies, HKU

Members

Chi-chung Lam, Department of Curriculum and Instruction, CUHK

Ida Ah-chee Mok, Department of Curriculum Studies, HKU

Ka-ming Wong, Department of Curriculum and Instruction, CUHK

Ngai-ying Wong, Department of Curriculum and Instruction, CUHK

April 1999

Contents

1.	Introduction	
1.1	Background	1
1.2	Research Questions	1
1.3	Relation with the Other Research Study	2
1.4	Structure of this Report	2
2.	Literature Review	
2.1	Students' Perception of Mathematics and Mathematics Learning	3
2.2	Students' Cognitive Style and Performance	6
2.3	The Asian Learner	8
2.4	World Trend of the Mathematics Curriculum	10
2.5	Goals of Mathematics Education	11
2.6	Delineation of the Local Mathematics Curriculum and Teaching	12
2.7	The Anticipated Change	16
2.8	Summary	18
2.9	Bibliography	20
3.	A Comparison of the Mathematics Curriculum Documents of Major Asian and Western Countries with Those in Hong Kong	
3.1	The Aims of the Mathematics Curriculum	26
3.2	Mathematics Contents: Depth and Coverage	33
3.3	The Tracking of Mathematics Curriculum Development	37
3.4	Reference	43
4.	Performance of Hong Kong Students in the Third International Mathematics and Science Study (TIMSS)	
4.1	Introduction	44
4.2	Some Characteristics of the Education System in Hong Kong	44
4.3	The Achievement of Hong Kong Students Compared with Their Counterparts in the Rest of the TIMSS Countries	47
4.4	The Affective Aspects	47
4.5	Conclusion	63
	Appendix	64
